

CALL FOR PARTICIPATION

"वसुधैव कुटुम्बकम्"

International virtual Conference on Science, People, Environment & Pandemic

(05-07 June, 2020)

(Google Meet)

(NO REGISTRATION FEE)

Research Cell, Community Engagement & Outreach Cell and Department of Environmental Sciences of Bhagini Nivedita College, University of Delhi, Delhi, India are going to organize an International virtual Conference on Science, People, Environment & Pandemic to be held at Google meet platform from 05-07 June, 2020. The fundamental goal of conference is to provide an international forum for the exchange of new ideas, thoughts and realizations on impact of pandemics including Corona on people, research and development, technology and environment. The theme of this e-conference is "वसुधैव कुटुम्बकम्" : Mother Earth as a family to study effects of pandemic on people and to fight against it to save Environment using Science and technology. We will be pleased to welcome you to "वसुधैव कुटुम्बकम्"-2020 and will be grateful for your contributions at the conference.

The conference is broadly divided into three interactive sessions apart from inaugural session and the scope of sessions is detailed under (but not limited to) the following tracks:

I: "Pandemic & People"

Tracks:

- Public health and Pandemic
- Internet and Pandemic
- Impact of Pandemic on Life style and Job opportunities
- Activities to tackle stress in such pandemic situation
- Any other related topic

II: “Pandemic & Technology”

Tracks:

- Research in vaccination against pandemic
- Role of science (Physics, chemistry, engineering, biology and other) in pandemics
- Role of technological advancements in pandemics
- Corona and other pandemic testing: detecting devices and sensors
- Study on Corona virus aspects including growth and life cycle
- Medical technology to fight against pandemic
- Mathematical modeling related to pandemic including Corona: growth curve
- Study of lockdown as preventive measure in corona in technical terms and mathematical terms

III: “Pandemic & Environment”

Tracks:

- Impact of pandemics on health of environment
- Pandemic : boost or curse to environment
- Sustainable goal to address environmental issues during pandemics
- Challenges of pandemics
- Role of Environmentalist against pandemics
- Environmental economy and pandemics
- Effects of pandemics on flora and fauna
- Bioweapons and pandemics
- Pollution and Pandemics
- Environmental Sensors and pandemics

For Registration follow Google link: <https://forms.gle/7nLmXdNqNpbM5KSG9>

No Registration Fee

Deadline for Registration: 3rd June 2020

E-certificate will be provided for all the successfully attending/presenting participants after checking attendance (Participant/presenter requires to attend all the sessions)

Only e-Abstract book will be released online during conference (no publication of articles)

Regards,

Research Cell, Community Engagement & Outreach cell
